HOW TO FILL THIS IN

1. After all 8 bags are pitched, count each team’s bags: **3 points** in the hole, **1 point** on the board. A bag touching the ground scores **0**.
2. Write each team’s **raw** total, then subtract the smaller from the larger. Only the difference is awarded — write it under **Net** with the team it went to.
3. Equal raw totals is a **wash**: nobody scores. Carry both running totals forward unchanged.
4. The team that scored pitches first next frame. After a wash, first pitch does not change hands.
5. First to **21 or more** at the end of a frame wins. Neither governing body uses a bust rule or requires winning by two.
